1. Product description

1.1 Intended use

Torvol LiPo Safe Bag – Stealth Edition is a case for safer storage and carrying of LiPo batteries. It holds up to 15 batteries and helps keep them together and well organised – at home, in transit and at races.

The inner lining is made of fire-retardant fiberglass fabric, the outer shell of treated polyester for durability. The case has a sturdy carrying handle, a robust zipper and a stretchy mesh organiser pocket inside the lid. It is designed to fit inside the Torvol *Quad PITSTOP Backpack* and *Quad PITSTOP Backpack PRO*. The Stealth version is all black.

LiPo Safe Bag – Stealth Edition with a battery (battery not included)

1.2 Specifications and package contents

Manufacturer	Torvol
Product name	LiPo Safe Bag – Stealth Edition
Manufacturer code	TO005BLCK
EAN	3700693501521
Capacity	up to 15 LiPo batteries
Outer dimensions	11 × 26 × 20 cm
Inner dimensions	8 × 23 × 17 cm
Weight	0.22 kg
Material composition	60 % polyester, 20 % polyethylene, 12 % fiberglass, 8 % aluminium
Package contents	1× LiPo Safe Bag – Stealth Edition
Not included	batteries, charger, Quad PITSTOP backpack

2. Use

Open case – main compartment and mesh pocket in the lid

2.1 Storing batteries

① Open the zipper and fold back the lid.

② Place the batteries side by side in the main compartment. Turn the leads and connectors so that they cannot get caught in the zipper or touch the contacts of another battery.

③ Put small items (cable ties, spare connectors, labels) into the mesh pocket in the lid. Do not place metal objects or tools next to the batteries.

④ Load only as many batteries as allow the zipper to close without force, and close the zipper completely.

※ Store only batteries without visible damage in the case. Never put a swollen, punctured, deformed or overheated battery into the case – retire it safely at once.

2.2 Carrying and transport

- Carry the case by its handle. Its dimensions match the interior of the Torvol Quad PITSTOP Backpack and Quad PITSTOP Backpack PRO, into which it can be placed.
- Protect the case against impacts and drops – it contains batteries that can become dangerous when mechanically damaged.
- Before air travel, check the current rules of the airline for carrying LiPo batteries. These rules are set by the carrier, not by this case.

3. Safety and care

3.1 LiPo battery safety

The fire-retardant lining of the case reduces the risk of a fire spreading if a battery ignites. However, the case **is not a fireproof safe** and does not replace following the rules for handling LiPo batteries.

- Never charge batteries unattended. Charge them on a non-flammable surface, away from flammable materials, and in accordance with the instructions for the charger and the battery.
- For long-term storage, set the batteries to storage voltage of **3.8 V/cell** (e.g. 3S: 11.4 V). Do not keep fully charged batteries (LiPo 4.20 V/cell, LiHV 4.35 V/cell) stored longer than necessary.
- Keep the case with batteries in a dry and cool place, away from direct sunlight, heat sources and flammable materials, and out of the reach of children and animals.
- Do not leave the case with batteries in a hot car.
- If a battery in the case starts to heat up, smell, hiss or smoke, keep it away from your face, do not inhale the fumes and – if it is safe to do so – move the case to a non-flammable surface outdoors. In the event of fire, call the fire brigade (112).

3.2 Care of the case

- Do not overload the case and do not force the zipper closed.
- Do not machine wash or tumble dry the case and do not use harsh cleaning agents. Remove dust and dirt with a brush or a damp cloth and let the case dry naturally.
- Protect the case from fuels, solvents, salt water and chemicals.
- Do not modify the case (cutting, re-sewing, drilling) – this would compromise the fire-retardant lining.
- Regularly check the seams, the zipper and the inner lining. Stop using a case with a burnt, torn or otherwise damaged inner lining for storing batteries.

4. Information for the EU and Czech Market

4.1 Importer and responsible person in the EU

The product is placed on the European Union market by the importer stated below, who is at the same time the responsible person within the meaning of Article 16 of Regulation (EU) 2023/988 of the European Parliament and of the Council on general product safety (GPSR).

Importer / responsible person in the EU	Rotorama, s.r.o.
Company ID (IČO)	051 57 692
VAT ID (DIČ)	CZ05157692
Registered office	Okrajová 1351, 674 01 Třebíč, Czech Republic
E-mail	info@rotorama.cz
Phone	+420 252 252 098
Website	www.rotorama.com

4.2 Disposal

- The case is not electrical equipment and contains no battery. At the end of its service life, dispose of it in accordance with your local waste rules, e.g. at a collection yard. It contains glass fibres and aluminium.
- Remove all batteries from the case before disposal. Batteries **do not belong in mixed waste** – hand them over at a take-back point for batteries and accumulators (e.g. the collection points listed at www.asekol.cz and www.ecobat.cz).
- Sort the packaging material by type into the appropriate collection containers.

5. Warranty and rights arising from defective performance

The rights and obligations of the contracting parties are governed by Czech law, in particular by Act No. 89/2012 Coll., the Civil Code, and Act No. 634/1992 Coll., on consumer protection.

- The seller is liable to the buyer for the product being free of defects on receipt. If the buyer is a consumer, a defect may be notified **within two years of receipt** of the product (Section 2165 of the Civil Code).
- If a defect appears within **one year** of receipt, the product is deemed to have been defective already at the time of receipt (Section 2161(5) of the Civil Code).
- When purchasing online, a consumer has the right to **withdraw from the contract within 14 days** of receiving the goods without giving a reason (Section 1829 of the Civil Code).
- Claims should be made with the retailer from whom you purchased the product. The importer's contact details are given in Chapter 4.1.
- The competent body for out-of-court settlement of consumer disputes is the **Czech Trade Inspection Authority**, Štěpánská 796/44, 110 00 Prague 1, www.coi.cz.
