1. Product description

1.1 What it is for

TBS Flymat is a lightweight folding mat made by Team BlackSheep (TBS). At your flying field it creates a clean and dry spot for your gear – backpack, radio, batteries, FPV goggles and other equipment – so you do not have to put it straight down on grass, mud or sand.

The mat is made of strong yet lightweight ripstop nylon fabric and is waterproof. It has four loops in the corners which, together with the supplied stakes, let you anchor it to the ground so that the wind cannot blow it away. After use it folds into a small drawstring pouch, so it takes up minimal space in your backpack.

Package contents: mat, four stakes and carrying pouch

1.2 Specifications and package contents

Product designation	TBS Flymat
Manufacturer	Team BlackSheep (TBS)
Mat size	110 × 70 cm
Weight	91 g (including pouch and stakes)
Material	ripstop nylon fabric
Features	waterproof, lightweight, compact
Package contents	1× mat 4× stake 1× carrying pouch with drawstring
Not included	tool for driving in the stakes; the gear you place on the mat (backpack, radio, batteries, FPV goggles, etc.)

2. Use

2.1 Laying out and staking down

① Choose a spot that is as flat as possible and free of sharp stones, branches and thorns that could puncture the fabric.

② Take the mat and the stakes out of the pouch and unfold the mat.

③ Pass one stake through each corner loop and push it into the ground at an angle, with its head pointing away from the mat. The fabric should be slightly taut.

④ On hard or stony ground, push the stake in only as deep as it will go without force – driving it in with a hard object may bend or break it.

⑤ Place your backpack and other gear on the mat.

※ In windy conditions, always anchor the mat with all four stakes or weigh it down with your backpack.

2.2 While flying

- The mat is waterproof and protects your gear from wet grass and soil. Do not, however, place it in puddles or running water – water may flow in over the edges.
- Keep the mat at a safe distance from open fire, barbecues and hot objects.
- The mat is not intended as a protective pad for charging batteries. Do not place damaged, swollen or overheated LiPo batteries on it – put them on a non-flammable surface away from other gear.
- Do not take off or land with a drone right next to the mat with gear on it – the propellers could damage the gear or stir up dirt.

2.3 Folding and storage

① Remove your gear from the mat, pull the stakes out of the ground and wipe the soil off them.

② Lift the mat by one edge and shake it – sand and small debris come off the smooth fabric easily.

③ Let a wet mat dry before packing it. If you have to pack it damp, take it out of the pouch at home and let it dry – long-term storage in damp conditions can cause mould and odour.

④ Fold the mat, put it into the carrying pouch together with the stakes and pull the drawstring tight.

Folded mat in the carrying pouch

2.4 Safety and care

- The stakes have sharp tips. Keep them out of the reach of small children and do not forget to collect them after use – a stake left behind in the grass can cause injury.
- The stakes and the taut fabric are a tripping hazard. Place the mat away from busy paths at the flying field.
- The pouch with its drawstring is not a toy – keep it out of the reach of small children.
- Wipe a dirty mat with a damp cloth or rinse it with clean water and let it air-dry. Do not use solvents or aggressive cleaning agents.
- The manufacturer does not provide machine-washing instructions – therefore do not wash the mat in a washing machine and do not dry it on a radiator or near any other heat source.

3. Information for the EU and Czech Market

3.1 Importer and responsible person in the EU

The product is placed on the European Union market by the importer stated below, who is at the same time the responsible person within the meaning of Article 16 of Regulation (EU) 2023/988 of the European Parliament and of the Council on general product safety (GPSR).

Importer / responsible person in the EU	Rotorama, s.r.o.
Company ID (IČO)	051 57 692
VAT ID (DIČ)	CZ05157692
Registered office	Okrajová 1351, 674 01 Třebíč, Czech Republic
E-mail	info@rotorama.cz
Phone	+420 252 252 098
Website	www.rotorama.com

3.2 Disposal

- The product is not electrical equipment and contains no batteries or accumulators. Take-back of electrical equipment does not apply to it.
- At the end of its service life, sort the mat, the pouch and the stakes by material and dispose of them in accordance with the waste management rules of your municipality.
- Sort the product packaging by type into the appropriate separate-collection containers.
- Do not leave the product in the countryside and do not burn it.

4. Warranty and rights arising from defective performance

The rights and obligations of the contracting parties are governed by Czech law, in particular by Act No. 89/2012 Coll., the Civil Code, and Act No. 634/1992 Coll., on consumer protection.

- The seller is liable to the buyer for the product being free of defects on receipt. If the buyer is a consumer, a defect may be notified **within two years of receipt** of the product (Section 2165 of the Civil Code).
- If a defect appears within **one year** of receipt, the product is deemed to have been defective already at the time of receipt (Section 2161(5) of the Civil Code).
- When purchasing online, a consumer has the right to **withdraw from the contract within 14 days** of receiving the goods without giving a reason (Section 1829 of the Civil Code).
- Claims should be made with the retailer from whom you purchased the product. The importer's contact details are given in Chapter 3.1.
- The competent body for out-of-court settlement of consumer disputes is the **Czech Trade Inspection Authority**, Štěpánská 796/44, 110 00 Prague 1, www.coi.cz.
