1. Product description

1.1 What it is for

The Sequre case is a small portable case for a mini soldering iron and its accessories. It is made of EVA and closes with a double zipper. According to the manufacturer, it holds one Sequre SI012 soldering iron, two soldering tips, one 4S battery and a power cable snugly.

The case can also be used as a small tool bag – for screwdrivers, batteries, a soldering iron or other small accessories that you want to keep together and protected from damage at the flying field or when travelling.

Inside of the case: ① mesh pocket, ② elastic loop

1.2 Specifications and package contents

Manufacturer	Sequre
Product designation	Storage Bag / MINI Portable Tool Bag (manufacturer code PJSNB000D)
Material	EVA
Closure	double zipper
Dimensions (L × W × H)	175 × 70 × 50 mm
Weight	approx. 77 g
Package contents	1× case

※ The package contains the case only. The soldering iron, tips, battery, cable, screwdrivers and any other accessories are not included.

2. Use

2.1 Storing the soldering iron and accessories

① Disconnect the soldering iron from power and let the tip **cool down completely**.

② Open both zipper sliders and open the case.

③ Place the soldering iron, tips, cable and other accessories in both halves of the case. Slide small parts into the mesh pockets; smaller items can be secured with the elastic loop.

④ Close the case so that nothing gets caught in the zipper. Do not force the zipper – if it is hard to close, rearrange the contents or remove some of them.

2.2 Safety

- Never put a **hot soldering iron** or a soldering iron connected to power into the case. A hot tip can damage the case and its contents or cause a fire.
- The case is **not a fireproof bag** for Li-Po batteries. Do not charge batteries in it and do not leave them unattended in places where they could heat up.
- Store the battery connector so that its contacts cannot touch metal objects (tips, screwdrivers) – there is a risk of a short circuit. We recommend covering the connector with a cap.
- Batteries to be stored for a longer period should be kept at the storage voltage of **3.8 V/cell** (15.2 V for a 4S battery).
- Keep the case with tools and batteries out of the reach of children.

2.3 Care and storage

- Store the case in a dry place, away from direct sunlight and sources of heat.
- Wipe dirt off the surface with a damp cloth; shake out or vacuum the inside. Do not use solvents.
- Remove solder and flux residues from the tips before storing them so that they do not soil the inner fabric.
- Let a wet case dry naturally with the case open before using it again.

3. Information for the EU and Czech Market

3.1 Importer and responsible person in the EU

The product is placed on the European Union market by the importer stated below, who is at the same time the responsible person within the meaning of Article 16 of Regulation (EU) 2023/988 of the European Parliament and of the Council on general product safety (GPSR).

Importer / responsible person in the EU	Rotorama, s.r.o.
Company ID (IČO)	051 57 692
VAT ID (DIČ)	CZ05157692
Registered office	Okrajová 1351, 674 01 Třebíč, Czech Republic
E-mail	info@rotorama.cz
Phone	+420 252 252 098
Website	www.rotorama.com

3.2 Disposal

- The case contains no electrical or electronic components and **is not electrical equipment**. At the end of its service life, dispose of it according to the waste sorting rules of your municipality.
- Sort the product packaging according to its material.
- Before disposal, remove all contents from the case. Batteries and electrical equipment (e.g. a soldering iron) never belong in mixed waste – hand them over at a take-back point.

4. Warranty and rights arising from defective performance

The rights and obligations of the contracting parties are governed by Czech law, in particular by Act No. 89/2012 Coll., the Civil Code, and Act No. 634/1992 Coll., on consumer protection.

- The seller is liable to the buyer for the product being free of defects on receipt. If the buyer is a consumer, a defect may be notified **within two years of receipt** of the product (Section 2165 of the Civil Code).
- If a defect appears within **one year** of receipt, the product is deemed to have been defective already at the time of receipt (Section 2161(5) of the Civil Code).
- When purchasing online, a consumer has the right to **withdraw from the contract within 14 days** of receiving the goods without giving a reason (Section 1829 of the Civil Code).
- Claims should be made with the retailer from whom you purchased the product. The importer's contact details are given in Chapter 3.1.
- The competent body for out-of-court settlement of consumer disputes is the **Czech Trade Inspection Authority**, Štěpánská 796/44, 110 00 Prague 1, www.coi.cz.
